

Gamuda, WCT reach Doha safety milestone

CONSTRUCTION of the new Doha International Airport (NDIA) has been accident-free since the joint-venture company of Gamuda Bhd and WCT Bhd started work in 2006. This translates into 18 million hours without a safety or health accident. In a statement released by Gamuda, it said that the milestone reflects positively on Gamuda's corporate philosophy as safety and health and environment are top priorities in the company's operations.
